WELCOME MESSAGE

On behalf of the Organizing and scientific Committees, we have the great pleasure to Welcome you to The 13th Arab Diabetes Forum (ADF 2022). Jointly on Marriott El Zamalek Hotel, Cairo, Egypt/12-14 October 2022.

We are confident that we will be able to make this conference a very special and memorable event. The scientific sessions of the conference will be dominated by scientific data from worthy speakers. This will be beneficial for all colleges working in the fields of Diabetes, Endocrinology, Cardiology, Nephrology, Internal, and Family medicine. Keeping in view this background, the conference will focus on new aspects and current updates, introduced recently in the field of diabetes and its related disorders.

This conference is a timely reminder of the inter-related nature of today›s non-communicable diseases and of the complexity of diabetes itself. The conference is also an indication of the ongoing commitment of the fight against diabetes in the Arab nations and our efforts in Arab countries on behalf of people with diabetes, their families and those who provide their care.

Based on the above the organizing committee is preparing to receive about 2500+ participants as this conference is already the biggest one not only in the Arab region but also in the whole Middle East area.

ADF Presidents
Prof. Abbas Orabi
Prof. Ali Abdel Rahim
