L e t t e r

Dear professors and colleagues,
It gives us a great pleasure to welcome you in 18th Annual International Conference of Arabic Association for the Study of Diabetes and Metabolism (AASD 2022).

On behalf of AASD board and members, we appreciate the strong participation and support of International Diabetes Federation, IDF. AASD as a member of IDF puts a great responsibility on all AASD members and board to do extra efforts for the cause of Diabetes.

On behalf of AASD, let me express our gratitude to Prof. Andrew Boulton, President of the International Diabetes Federation for his extraordinary support of all AASD activities. We also appreciate the dedication of Prof. Boulton to all IDF member associations and diabetics all over the world.

Due to Covid 19 pandemic, AASD has decided to host its 18th Annual International Conference as a hybrid one with more than 4000 virtual registrations and we wish to see you all, dear faculty and attendees in AASD 2023.

We appreciate the presence of our eminent guest speakers from United Kingdom, USA, Croatia, Albania, Germany, Macedonia, Portugal, Morocco, Turkey, Bahrain and Iraq for their presence to share in this Outstanding scientific event. Their participation added a great scientific value to the conference.

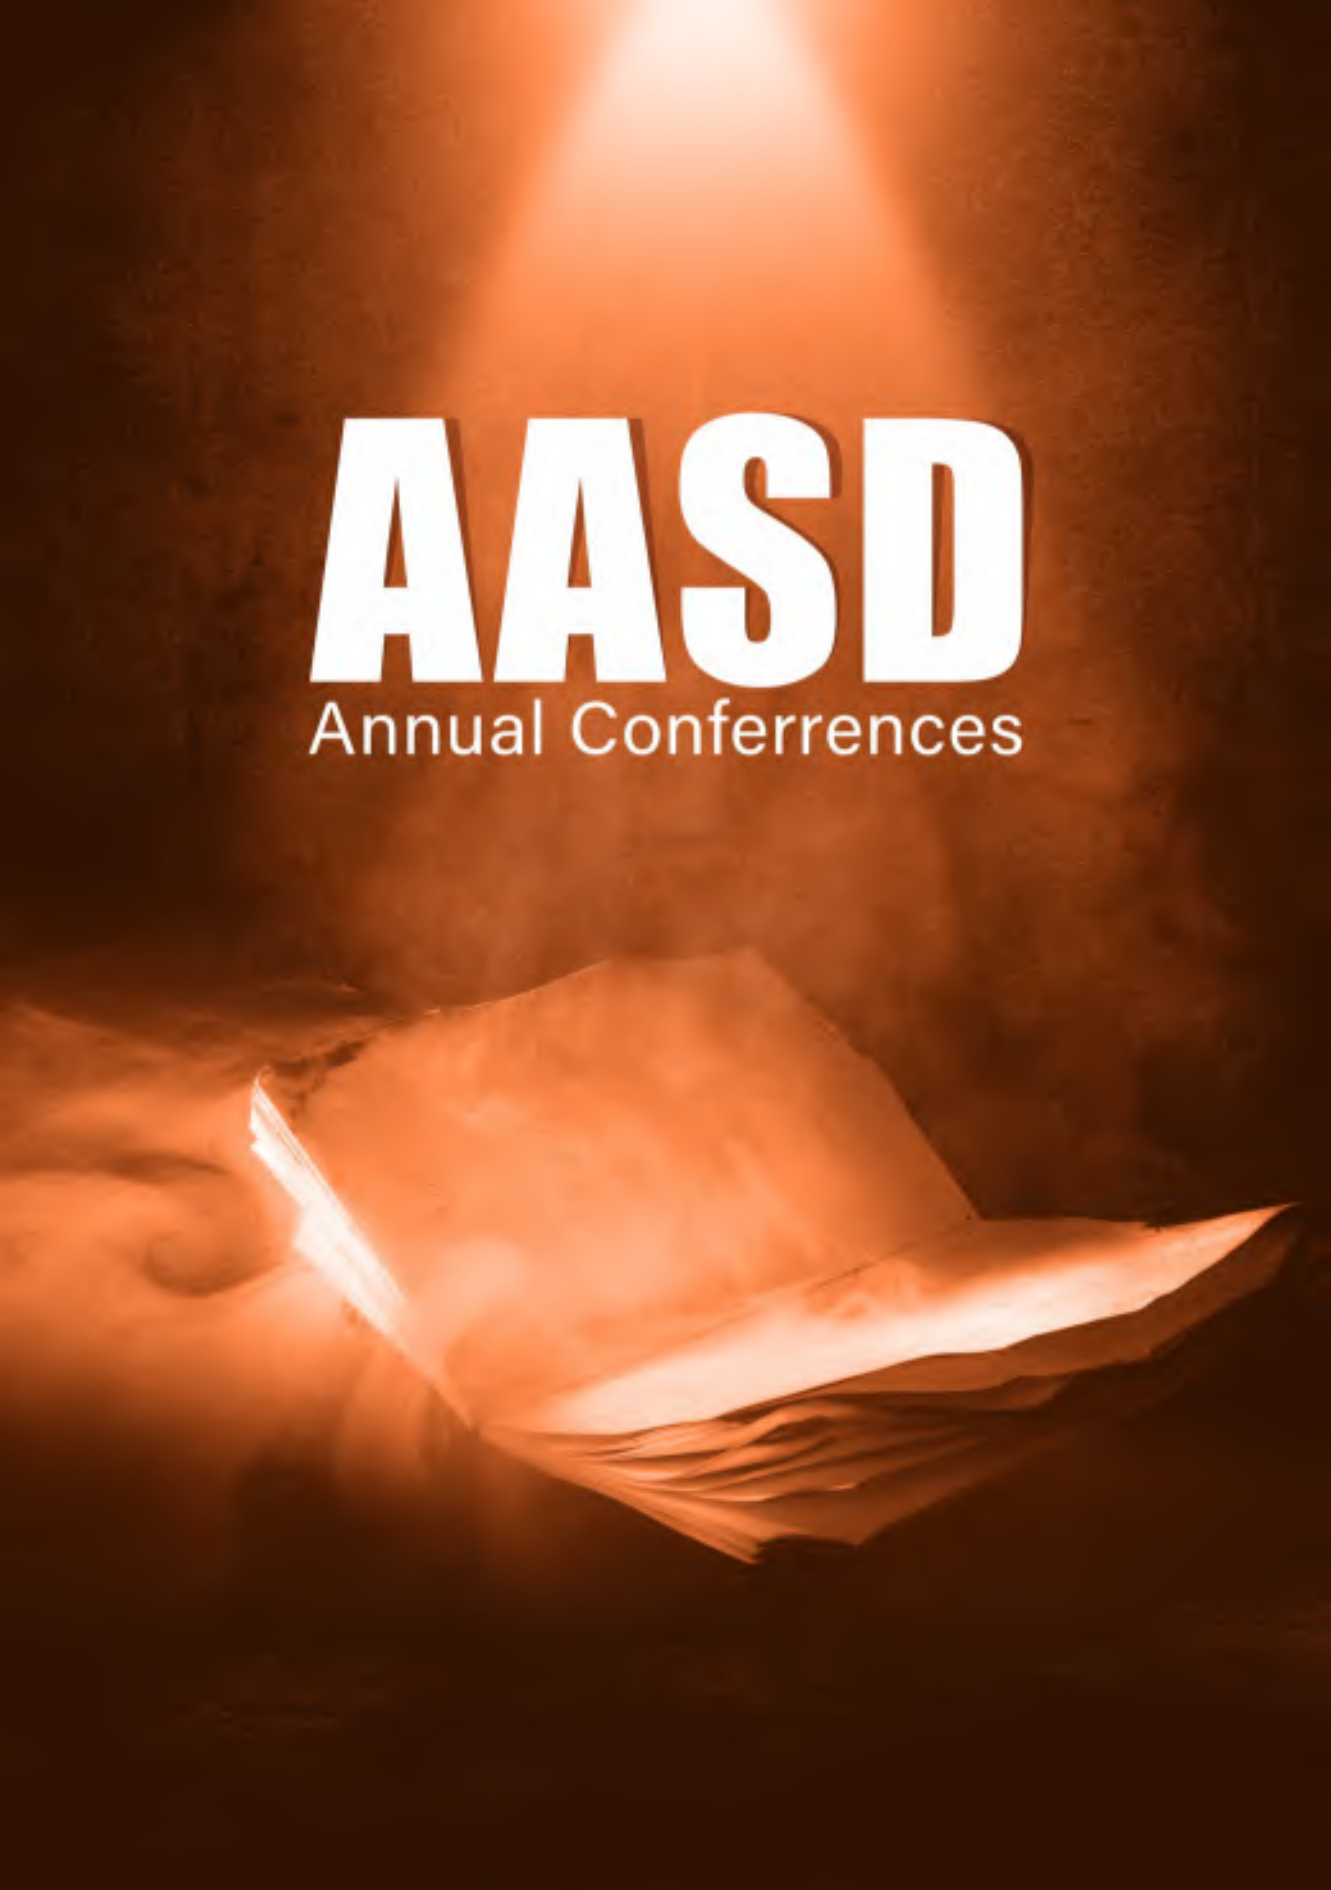

On behalf of my colleagues, board and members of AASD, let me express my gratitude to all Egyptian professors & speakers who agreed to join us and Co- chair the Advisory board and National Faculty in this Hybrid scientific event.

AASD as one of the leading Diabetes Associations has been recognized in December 2017 as an IDF center of education and our continuous scientific and patient activities aim to share in:

1. Public awareness and patient education with the aim of prevention and optimum management.
2. Medical conferences intending to share knowledge and stimulate research.
3. Post graduate continuous medical education (AASD-CME).
4. Newsletters for health care professionals that intend to increase knowledge about the standards of medical care in diabetes and associated co-morbidities and complications.
5. Building the capacity of thousands of doctors, nurses and educating Patients which enhanced their knowledge to cope with diabetes.

Looking forward to seeing you in 2023 life conference, In Shaa Allah

AASD & Conference President
PROF. INASS SHALTOUT

For Healthcare Professionals Only

Toujeo®, there to help[2]

Help your patients find **balance between HbA_{1c} reduction and hypoglycemic risk**[3]

With a more stable 24 hour **glycemic** profile[2]*

In a convenient† **insulin experience**[4]

*In steady-state PK/PD analyses in T1DM, Toujeo® showed a more stable and prolonged glucose lowering effect compared to insulin glargine 100 units/mL.[5]

†Toujeo® is available in an easy-to-use pen[4]

to be administered once daily at any time of the day, preferably at the same time every day.[1]

When needed, patients can administer Toujeo® up to 3 hours before or after their usual time of administration[1].

Flexible dosing time was evaluated in two randomized, open-label clinical studies, in patients with T2DM.[2]

Toujeo® is indicated for the treatment of diabetes mellitus in adults, adolescents and children from the age of 6 years.[1]

Toujeo® is contraindicated in case of hypersensitivity to the active substance or to any of the excipients.[1]

Abbreviations: HbA_{1c}, Hemoglobin A_{1c}; PD, Pharmacodynamics; PK, Pharmacokinetics; T1DM, Type 1 Diabetes Mellitus; T2DM, Type 2 Diabetes Mellitus.
