PURE SPOT

Message from the President

It is my great pleasure and honor to ask you all to join us in the 30th EFSS Annual International Conference in Cairo.

The 30th Annual International Conference of EFSS will be held during the period 28th -29th November 2024.

You may recall the great success, which we all enjoyed, in the previous Annual International Conferences organized by the Society during the past 29 years.

The EFSS 29th Annual International Conference held on Nov 30 & Dec 1 2023, was a great success. The Board of directors of the Society had invited a large number of International figures in the field of Infertility from different parts of the world to participate with us either physically or virtually as possible in this conference.

Oral and poster sessions will be organized to accommodate more scientific research display during the Conference.

We hope that you will enjoy the social gathering and scientific program as well.

Sincerely

Prof. **Gamal I. Serour**
President of the Society and the Conference.
