11th

Annual Scientific Meeting Of

DAMIETTA SOCIETY OF OTORHINOLARYNGOLOGY

Recent Advances In Basic Of Otorhinolaryngology Procedures

Dr. Osama Hegazy

The memorial president of the conference, and the founder of Damietta society of otolaryngology
He started his journey of otolaryngology in damietta at seventies of the previous century.
At all these years he served large number of patients and doctors from his colleges and juniors.

He founded damietta society of otolaryngology 11 years ago, to advance continuous medical education in Damietta by attracting the top ENT professors in Egypt and organizing workshops to educate junior doctors.

Until he discovered his cancer diagnosis days before the association's ninth annual conference Despite his severe illness, he insisted on presenting the conference in its best form, as his doctor friends were accustomed to from him.

Then he passed away after battling the malignant disease on **May 9, 2024**, and here we are holding the 11th annual conference in his memory, preserving his legacy, values, and principles, and we pray to God to God to help us continue his journey and accept this work from us as ongoing charity for his pure soul.

"Mohamed Osama Hegazy"

Day 1

Registration 9:00–10:00 AM

Session I 10:00–12:00 PM

Chairpersons:

Dr. Mohamed El-Abhar
Dr. Alaa ElKaref
