WORKSHOP

Prof. **Yacoub Khalaf**
Pre IVF assessment and counselling

9:00-9:20

Prof. **Tarek El-Husseiny**
IVF after bariatric surgery

9:20-9:40

Prof. **Abo Bakr Al-Nashar**
ESHRE guidelines for ovarian stimulation

9:40-10:00

Prof. **Mohamed Sabry**
Ovum pickup: tips & tricks and equipment failure

10:00-10:20

Prof. **Yacoub Khalaf**
Non vaginal egg collection

10:20-10:30

Prof. **Mohamed Aboulgar**
The role of new technology in IVF outcome

10:30-10:50

IVF AND ICSI:
THINKING OUTSIDE THE BOX

WORKSHOP

Prof. **Mohamed El Zayat**
Embryo transfer: what happens behind the scenes?

10:50-11:10

Prof. **Mohamed Youssef**
Fetal reduction: prevention is better than cure

11:10-11:30

Prof. **Mohamed Yehia**
Total freezing: revisited

11:30-11:50

DISCUSSION

Moderators:
Prof. **Mohamed Yehia**
Prof. **Tarek El-Husseiny**

11:50-12:10

BREAK

12:10-12:30

Prof. **Ahmed Mustafa Metwalli**
PGT: new insights

12:30-12:50

IVF AND ICSI:
THINKING OUTSIDE THE BOX

WORKSHOP

Prof. **Richard Anderson**
Evidence-based approach to the diagnosis and treatment of POI

12:50-1:10

Prof. **Mohamed Bedaiwy**
How to prepare patients for FET .

1:10-1:30

Prof. **Hatem Awaga**
Myoma in ART: an unwelcomed guest

1:30-1:50

Prof. **Daniela Romualdi**
PCOS: reproductive challenges from conception till delivery

1:50-2:10

DISCUSSION

Moderators:
Prof. **Mohamed Bedaiwy**
Prof. **Mohamed Youssef**

2:10-2:30

BREAK

2:30-2:50

Prof. **Mohamed Yahya AbdelHafez**
The challenge of ART in patients with estrogen receptor positive breast cancer

2:50 -3:10

IVF AND ICSI:
THINKING OUTSIDE THE BOX

WORKSHOP

Prof. **Tarek AbdelRadi**
Premature luteinization: the unpleasant surprise.

3:10-3:30

Prof. **Mona Aboulgar**
Uterine niche: ultrasonographic challenge

3:30-3:50

Prof. **Mohamed Bedaiwy**
Uterine niche: laparoscopic challenge.

3:50-4:10

Prof. **Osama Shawki**
Uterine niche: hysteroscopic challenge

4:10-4:30

DISCUSSION

4:30 -4:55

Prof. **Medhat Amer**
Micro TESE: lessons from the experts

4:55-5:15

2023 YEARS

UPPER EGYPT
ASSISTED REPRODUCTION CONFERENCE
GYNECOLOGY - ANDROLOGY - EMBRYOLOGY

INTRA UTERINE FETAL INTERVENTIONS

14 February, 2023

Cairo Marriott Hotel, Egypt

COURSE

COURSE COORDINATOR

AHMAD ZAKARIA

OVERVIEW

This is a one-day course that offers a comprehensive theoretical and part of practical review of the indications, methodology and feasibility of intra uterine fetal interventions. The course would cover fetal sampling procedures, its role in fetal karyotype and inherited genetic disorders, Fetal transfusion of blood products, insertion of fetal shunts, and fetoscopic procedures. The aim is to build on the existing sub-specialization programs and raise training standards internationally and promoting standards in clinical practice through the exchange of ideas, knowledge and experiences.

WHO SHOULD ATTEND?

- All Trainees, specialists and Consultants in obstetrics and gynecology.
- Those who are registered, or interested in Advanced Antenatal Practice and Fetal Medicine
- All clinicians involved in the diagnosis, management and counseling of fetal anomalies and antenatal high-risk obstetrics.

WHY TO ATTEND?

- There will be topics of interest in fetal interventions across the course.
- There is dedicated hands on training session that will help improve the candidates' skills
- The topics are designed to raise the ultrasound guided procedures skills

COURSE FACULTY

Prof. **AHMAD ZAKARIA**
FRCOG, MRCOG, M.D,
Diploma of Fetal Medicine

A.Prof. **SARA HESHAM**
Head of department of
Prenatal Diagnosis at
National Research Center

Dr. **NERVANA SABRY**
Senior Fellow Fetal Medicine Unit at
Cairo University

COURSE OBJECTIVES AND PHILOSOPHY

a. Principles of ultrasound guided fetal procedures and how to plan them.
b. To establish more understanding of indications of fetal sampling and its role in prenatal diagnosis.
c. Utilization of different procedures to treat fetal malformations including anemia, obstructive uropathies, diaphragmatic hernia, pleural effusion, and laser separation of monochorionic twins.

COURSE DESIGN

- The course duration is 1 days.
- The daily scenario includes lectures that covers the required topics, those are followed by 2 hours of hands-on training and life demonstration on models guided by ultrasound on different scenarios of fetal malformations.
- The course design will allow for greater interactive learning on the day. Case-based discussions will be used to review advanced ultrasound techniques and common clinical dilemmas, as well as rare conditions.
- The lectures include top quality multimedia for training including videos, pictures and diagrams illustrating the anatomy, anomalies and their appearance on ultrasound and gross pathological examination.
- The candidates will be divided into groups with an allocated trainer for each group who will be in charge of one-to-one hands-on training.
- The candidates will go through a pre and post course questionnaire

STUDY MATERIALS

The candidates will be provided with hand outs and C.D for the lectures, as well a theoretical book will be recommended for further readings, in addition they will be provided with the recommended internet sites for updating their medical knowledge.

COURSE VENUE

The course will be held in Marriot Hotel in Cairo, Egypt

MATERIALS AVAILABLE FOR THE COURSE

A full multimedia lecture hall that is equipped with PC, projector and video projector. Around 3 training stations will be available for the hands on training. High definition ultrasound machines equipped with both trans-abdominal convex and trans-vaginal convex multi-frequency probes. The machines should have Colour and Pulsed Doppler, foetal echocardiography and 3D capabilities. Admin staff will be provided to help in each station.

COURSE LAYOUT

09.00- 09.30 REGISTRATION

09.00 - 09.30 Pretest and course introduction session

Course Pretest
- Welcome and introduction to the course
- Set up of machine and place for scan
- Probe orientation and ultrasound terminology

09.30 - 10.30 Principles of ultrasound guided fetal procedures

- Understanding the correct planes
- Orientation and needle placement methods
- Choice of needles, shunts and set up of procedure
- Probe orientation, intra operative monitoring and post operative care

10.30-12.00 Fetal Tissue sampling procedures

- Screening of chromosome abnormalities as an indication of fetal sampling
- Challenges of invasive prenatal testing for monogenic disorders
- Chorionic villous sampling and amniocentesis: timing principles and complications

12.00- 12.30 BREAK

12.30-13.00 Intra uterine fetal transfusion

- Indications
- Fetal Monitoring before and after procedure
- Principles and follow up

13.00-13.30 Other Fetal procedures and their role

- Insertion of fetal shunts in pleural effusion
- Is there a role in obstructive uropathies
- Fetoscopic laser separation of Monochorionic twins.
- Fetoscopic treatment of diaphragmatic Hernia
- Fetoscopic repair of open spina bifida

13.30-15.00 Hands on training session on models

We will arrange 3 training stations where candidates will alternate on them and each covers a specific training target

Each station will have a dedicated trainer to train the candidates on the required objective:
- Guiding needles for tissue sampling
- Approach for cordocentesis for fetal transfusion
- Insertion of fetal shunts

15:00-16:00 CLOSING REMARKS AND POST TEST

16:00 LUNCH

WEDNESDAY 15 FEBRUARY 2023

12:00-13:00	REGISTRATION

SESSION 1	Preparation of a doctor starts in the first year of medical school.
CHAIRPERSONS	Ahmed Minshawy *(EG)*, Ahmed AbdelMoula *(EG)*, Hasan Abdel-Latif *(EG)*, Mostafa Abdel-khalek *(EG)*, Magdy Ameen *(EG)*

TIME	SESSION/LECTURE	FACULTY
12:50-13:00	Opening and course orientation	Mostafa Abdel-khalek
13:00-13:30	Old versus New medical education system: philosophy and practice.	Ahmed Makhlouf
13:30-14:00	George Miller triangle. How much can we get from it?	Mahmoud AbdelAleem
14:00-14:30	Essential medical skills: how to teach and endorse?	Mohamed Fathalla
14:30-15:00	Mental preparation of a medical student	Edress Hassan
15:00-15:30	A good Medical educator is…	Yacoub Khalaf
15:30-16:00	Break	

SESSION 2	Principles of doctor-patient relationship.
CHAIRPERSONS	Dina Shokry *(EG)*, Hazem Abdelghaffar *(EG)*, Aly Mahran *(EG)*, Amany Omar *(EG)*, Hany Seleem *(EG)*,

TIME	SESSION/LECTURE	FACULTY
16:00-16:30	Ethics in medical practice	Dina Shokry
16:30-17:00	Doctor-patient relationship	Ahmad Fawzy Qasem
17:00-17:30	Fostering respectful maternity	Mahmoud AbdelAleem
17:30-18:00	Manging Patient - Physician conflict	Mohamed Bedaiwy
18:00-18:30	Doctors and social media. Do's and Don't's	Hany Seleem
18:30-19:00	The International Fertility Education Initiative-why we need to teach reproductive health	Joyce Harper
19:00-19:30	Market authorization and market access: what is the difference, challenges for low and middle income countries	Jacek Walczak
19:30	Break	

THURSDAY 16 FEBRUARY 2023

SESSION 3 — Medical publishing: how to attain a credible publication

CHAIRPERSONS Azza Saleh *(EG)*, Osman Abdelkareem *(EG)*, Salah Roshdy *(EG)*

TIME	SESSION/LECTURE	FACULTY
13:00-13:30	How to fund your research? An essential step.	Essam Rashad
13:30-14:00	How ethics committee should deal with allegations of research misconduct	Azza Saleh
14:00-14:30	Ethics of medical research	Osman Abdelkareem
14:30-15:00	Ethics committee and dispute in authorship	Aurora Bueno
15:00-15:30	Basic science research. The message from junior to juniors	Mai Emad
	Per review and editorial handling of a paper	
15:30-16:00	Peer review. A good chance to protect science.	Omar Shabaan
16:00-16:30	How to avoid rejection of your paper: An advice from an editor	Ahmed Nasr
16:30-17:00	Break	

SESSION 4 — CONTINUOUS MEDICAL EDUCATION

CHAIRPERSONS Mohamed Yahia *(EG)*, Emad Darwish*(EG)*, Mohamed Salama *(EG)*

TIME	SESSION/LECTURE	FACULTY
17:00-17:30	Fill in the gap: continuous medical education. A real example	Tamer Hefnawy
17:30-18:00	Training of a graduate medical students in the field of Obstetrics and Gynecology	Ahmed Abass
18:00-18:30	Medical conferences. The merit and the pitfall	Mohamed Salama Gad
18:30-19:00	The relationship between industry and science. A complex issue.	Yacoub Khalaf
19:00-19:30	The Proceedings of 2022 workshop	Mohamed Iqbal Mahmoud Abdelaleem
19:30-20:00	Closing remarks
