VOICE AND SWALLOWING DISORDERS

VOICE EGYPT 2026

Welcome Message for Voice Egypt 2026

Dear Colleagues and Friends,

On behalf of the organizing committee, it is my great honor and privilege to welcome you to the Second Voice Egypt Congress – Voice Egypt 2026, which will take place on 14–16 October 2026 at the elegant Tolip El Narges Hotel in Cairo, Egypt.

Following the remarkable success of Voice Egypt 2026 in Ras Elbar, where we enjoyed exceptional scientific exchange, vibrant discussions, and an inspiring level of participation from experts across the region and the world, we are thrilled to continue this journey of growth and collaboration.

This year, we gather in Cairo — a city where history, culture, and science meet.

As one of the world's oldest capitals, Cairo stands as a living museum with its timeless landmarks, from the majestic Pyramids of Giza and the historic Citadel to its centuries-old mosques, churches, and bustling cultural districts. It is a city that has always celebrated knowledge, discovery, and civilization — an ideal backdrop for a congress dedicated to advancing the fields of voice, swallowing, and upper airway sciences.

Voice Egypt 2026 promises an enriched scientific program, interactive workshops, and meaningful opportunities for networking and collaboration. Your continued commitment and enthusiasm are what bring true value to this congress.

We look forward to welcoming you in Cairo for another memorable and impactful meeting.

With warm regards,

Prof. Tamer Abou-Elsaad, MD, PhD
Congress President, Voice Egypt 2026
Prof. of Phoniatrics, ORL Department, Faculty of Medicine, Mansoura University ,Mansoura, Egypt
President of the International Association of Communication Sciences and Disorders (IALP).
